

## Sprint 4 Report

Groovo

Team Groovo

12/01/2025

### Actions to Stop Doing

List the activities or actions the team determined they should stop doing. Include a brief explanation for each.

- Nothing. By Sprint 4 we had gotten our routine under good control.

### Actions to Start Doing

List the activities or actions the team would like to start doing to improve their development process. Include a brief explanation for each.

- Comment on code for cleanliness and easy transfer of knowledge
  - Headers, commenting on functions
  - Not remaking functions because no communication between team members.

### Actions to Keep Doing

List the activities or actions that are working well and should continue.

- Maintain strong team communication
  - The team has demonstrated consistent and effective communication throughout the sprint. Regular updates, responsiveness on Discord, and willingness to collaborate have contributed significantly to smooth progress.
- Preserve the current momentum and work ethic
  - The team showed excellent momentum during this sprint—tasks were actively worked on, blockers were addressed promptly, and features progressed at a consistent pace. Maintaining this energy and workflow into the next sprint will be crucial for meeting future deliverables and improving overall output quality.

### Work Completed / Not Completed

#### \*\*User Stories Completed:\*\*

- User story 1, 2, 5

### **\*\*User Stories Not Completed:\*\***

- User Story 3: Added to backlog. Felt a moderation ability wasn't necessary to our product at this stage
- User Story 4: Added to backlog. Recommendations are global as of now, but users can find albums with genre sorting through last.fm

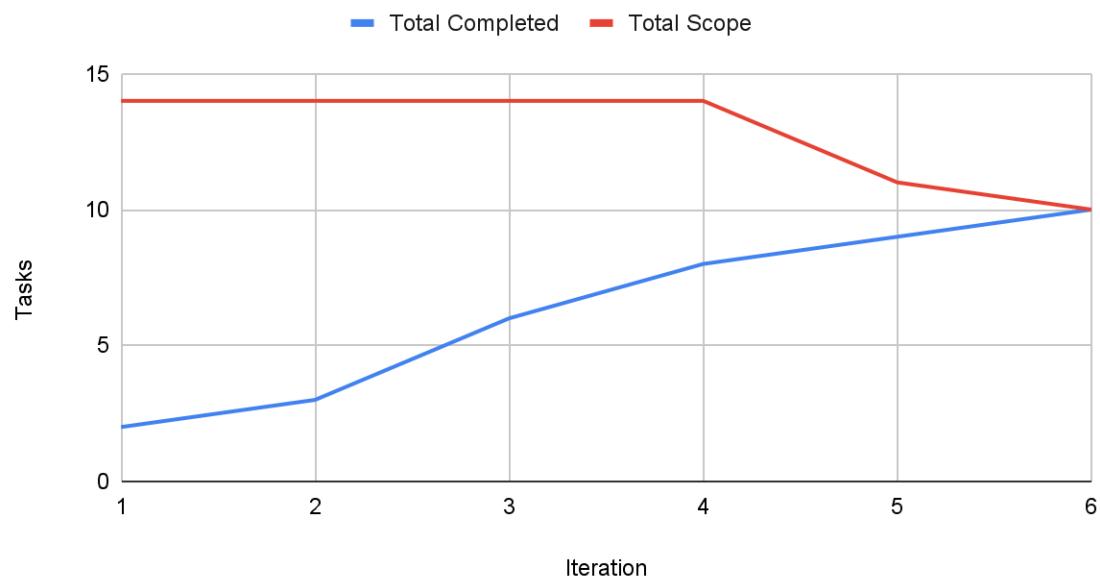

### **Work Completion Rate**

#### **Report the following metrics:**

- Total number of user stories completed during the sprint: 3
- Total number of estimated ideal work hours completed: 45
- Total number of days in the sprint: 12
- 
- Ideal work hours per day: 3.5
- (For later sprints) Average user stories/day across all sprints:
- (For later sprints) Average ideal work hours/day across all sprints:
